Development. The need for day count conventions is a direct consequence of interest-earning investments. Different conventions were developed to address often conflicting requirements, including ease of calculation, constancy of time period (day, month, or year) and the needs of the accounting department.

Day count convention - Wikipedia

Math By Myself, in my class is a time for students to work on their math assignments independently and a time to meet with the teacher. I meet with a leveled group of students and we do some work on the day's skill.

School Is a Happy Place: Math Daily 3, How We Started

Computus (Latin for "computation") is a calculation that determines the calendar date of Easter. Because the date is based on a calendar-dependent equinox rather than the astronomical one, there are differences between calculations done according to the Julian calendar and the modern Gregorian calendar.

Computus - Wikipedia

Study Island is a leading academic software provider of standards-based assessment, instruction, and test preparation e-learning programs.

Section 7-7 : Types of Infinity. Most students have run across infinity at some point in time prior to a calculus class. However, when they have dealt with it, it was just a symbol used to represent a really, really large positive or really, really large negative number and that was the extent of it.
